

JBX Futura Recykling Sp. z o.o.

ul. Aleja Solidarności 21
27-400 Ostrowiec
Świętokrzyski Poland

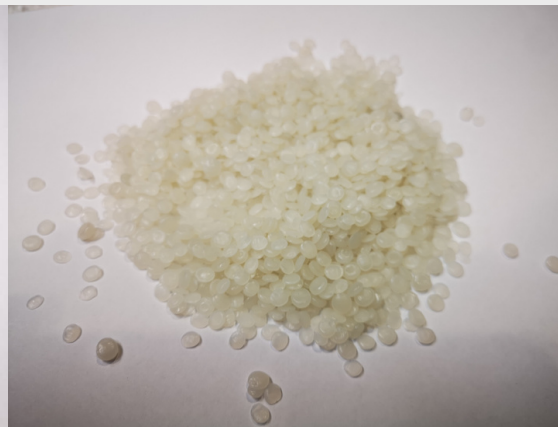

ABOUT US

JBX FUTURA RECYKLING is located in Ostrowiec Świętokrzyski. It is here that we produce regranulate from waste film types: LDPE, LLDPE and HDPE. In addition, we provide processing services from the material entrusted by the customer. Thanks to modern and proven technology, our product meets all technical and quality requirements. We have two independent high-performance production lines, a warehouse of finished products with an area of 2500 m², storage yard and freight scale.

JBX FUTURA RECYCLING means:

- 800 tons of pellets per month,
- high and constant quality,
- short lead times,
- competitive prices.

We invite you to cooperate
